FURTHER INFORMATION

Cleaning/Maintenance:

Both new and used gloves should be thoroughly inspected before being worn to ensure no damage is present. Gloves should not be left in a contaminated condition if reuse is intended in which case gloves should be cleaned if possible, laundering of these gloves is not recommended. Extra care should be taken when removing gloves to avoid any contaminant contacting bare skin.

Storage:

Store in cool dry area away from direct light or heat source in the original packaging where possible

General:

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer

Please Note:

The results of the physical tests should help in glove selection, however it must be understood that actual conditions of use cannot be simulated and it is the responsibility of the end-user and not the manufacturer to determine glove suitability for the intended use
